Solicitation rule passed on cross boundaries recruiting/ advertising; need to be approved by North County ahead of time at a board meeting. Rush offering Coaches clinic; we as a club are against this proposal and will look at getting our own clinics within our club.

Updated balance sheet, looking to see where we can save money, such as water being turned off, dumpster being picked up.

Jane Johnson- Referees

Has contacted returning ref's, re-cert clinic will be scheduled and email will go out. Entry Level clinic pending, in the past it has been the first week in August.

Jim Johnson- Fields, Tournament

No report on Tournament. Meeting was held on fields and more volunteers showed than expected, topics did not stay focused on what Jim was there to discuss. Jim and Chris are going to work on a schedule for getting fields ready. Another meeting was held at fields to instruct people on how to use the aerator; a committee will be formed to work on fields. County should be getting fields signed off on this month and after that we can possibly add sand but not until then. Having a storage unit put down there would be ok with county. County putting signs up at field and looking at field layouts. County is putting in permit for irrigation and getting rid of wetlands. City fields are booked through spring and county put lines for the peewee fields.
